Inspectors Approve Scott-Sambrook 'Plane

Pass Favorable Comment on Workmanship and General Construction of Plane

Government inspector Ingram and his assistant were surprised and pleased when they visited Bassano last Saturday and viewed the Scott-Sambrook airplane now under construction. Mr. Ingram was "surprisingly surprised when he stepped into the Scott-Sambrook hangar and saw the fuselage of the plane as it stood on the floor of the garage. He commented the builders on the quality of the workmanship put into the machine.

After carefully examining the wings, fuselage, rudder, tailplane, controls, and all parts of the plane, the two inspectors gave a general thumbs up and advised Mr. Sambrook that if the machine was to be used for commercial purposes blueprints of it must be filed in the government office. Mr. Sambrook is now making the blueprints.

The inspector and his assistant arrived from Calgary in a Mohawk plane about 11 o'clock Saturday morning. After inspecting the Scott-Sambrook plane they took off in the afternoon for High River

SWIMMING POOL IS POPULAR

Hundreds of boys and girls and scores of adults are using the Bassano swimming pool these warm days. Swimming is now the most popular sport in town.

Light Rainfall Helps A Little

Crops on Somewhat Resist Drought

A light rainfall over the weekend, measuring 41 inch at Bassano, gave some relief to the drought stricken crops.

Friday, Saturday and Sunday the weather was fairer, and a number of times it rained so hard that the rain clouds closed in and that a steady rain would follow.

According to the C. P. R. rain gauge at Bassano, the dam, Gem and Countess, the following precipitation occurred over the weekend:

Bassano	41 inch
Bassano Dam	41 inch
Gem	41 inch
Countess	41 inch

The heaviest rainfall occurred at Countess, and the crops there were materially benefited by the rainfall.

The stubbed in crops have been seriously damaged by the drought, and the rain was not sufficient to revive them. It is doubtful if studded in wheat will be white, while earing and barley will be yellowish brown.

Irrigation farmers have been very busy spreading the waste water in their fields during the past few weeks. Some have had a plentiful supply of water for all demands.

The peak of demand for irrigation water was reached last Friday, but many farmers continue to run the water on their fields.

The first rainfall in four weeks has been a welcome sight to many who were to see in the irrigated section.

WHAT LUBRICATION IS TO MACHINERY-- Gum-Dipping Is To TIRES

As the film of oil prevents friction of metal parts, so does the film of rubber prevent the cord of a strand of Firestone cord, protect it against heat and friction within the cord due to continued flexing.

Gum-Dipping assures you most mileage for least money, with greatest safety, comfort and satisfaction when you equip your car with Firestones. See your local Firestone Dealer.

The One Hundred Percenter

Lady Astor, Vice-Bernard Shaw has the habit of saying startling things that make people think, says the Winnipeg Tribune. In the recent election campaign in Great Britain she struck a responsive chord in many minds when she said:

"I think the 100 per cent American and the out-and-out Englishman I fear I think 100 per cent citizens ought to be locked up. They are a danger to the world."

Everybody knows what a 100 per cent or an out-and-out is. He is to be found in more or less substantial numbers in every country, although his favorite stamping ground is the North American continent. The 100 per cent may be distinguished by several well-known characteristics.

In the first place, he holds as a great moral principle the notion of doing unto others as he would have done unto himself. This may not always be right, but my country right or wrong?" This naturally shades down into "my state or province, my city, my ward, my party," and, not infrequently, "myself."

In essence it is placing a nation, or a locality, or a group of persons associated together for some common cause above every ethical or legal judgment of the individual.

Another sign of the 100 per center is a steadfast belief that everything is American, or Canadian, or English, or Italian, is right, because it is American, or Canadian, or English, or Italian. The logical consequences of such an obsession is that he cheapens his country's flag by dragging it in and flaunting it on every possible occasion.

The 100 per center is also a man who, like myself, fails to see that participation is not the result but the result of a sound and honorable national life.

He is the victim of current standardized of thought, which manifests itself in slogans and headlines. Not everyone would want to go far as Lady Astor and have him barked up. Nevertheless he is a danger because his enthusiasm is rooted mainly in a mass of intolerance. And intolerance, as Lady Astor implied, is one great obstacle to civilized social progress.

And in civilized social progress lies the hope for the future peace of the world. If the American, the Canadian, the Englishman, the Italian insist upon the acceptance of their particular national views, and intolerance refuse to see any good or virtue in the views of others what hope can there be for international understanding?

And if the 100 per cent doctrine is sound and right, and the 100 per center is to have his way, what hope is there for the future of many nations of today? Take Canada as an example. If the 100 per cent Easterner adheres rigidly to his views, declares he alone is right, but whether right or wrong, he will not budge. He will not budge on racial or ethnic questions, and the 100 per cent Westerner adopts the same attitude, what will be the outcome of the Canadian Confederation?

Apply the same attitude of mind in matters of race, language, religion, and government in Canada, and in each of the provinces of Canada, become an impossibility. The 100 per cent would wreck everything if he does not have his own way.

All these attitudes prove that intolerance has been the cause of the world's greatest sorrows, the underlying cause of his bloodiest wars. Intolerance of race, intolerance of national customs, intolerance of religion, intolerance of social conditions, the 100 per cent in the ranks of employers and in trade unions, these are the real dangers in the world today as they were in the years that are past.

The 100 per cent, dogmatic with a glib tongue and a reckless disregard for truth and fact by attracting the attention, playing upon the passions, prejudices and sentiment of those who are swayed rather than guided by their intelligence, can undo the work of generations of statesmen, and render difficult and oftentimes impossible the work of the true reformer.

The man who boasts he is 100 per cent, the 100 per cent that is most arrogant, most self-satisfied, most narrow in his vision and conception of life. He may be shrewd, but his shrewdness is the outcome of his intolerance, and his intolerance has its foundation in ignorance and a prejudiced mind. As such he is a national danger.

To Test Air Television

Monoplane Has Been Especially Constructed To Try Out Television

Plans have been made by the inventor of television apparatus calculated to test its inventor, C. Francis Jenkins, Washington physicist, to reproduce conditions as seen from an airplane, on a screen miles away.

In wartime instantaneous recording at headquarters of observations made by planes back of the enemy lines — as broadcast by the "aerial television eye," will soon be a scientific reality, he said.

Successful experiments with the

new process have already been conducted with the aid of a monoplane fitted out, he announced, and a thin senior cabin monoplane had been specially constructed for practical test purposes.

Will Increase Empire's Trade

To British Dominions

Increased Canadian exports will divert Canada's trade more and more to the other Dominions of the British Empire, believes Norton Franklin, president of the Canterbury New Zealand chamber of commerce, who is promoting a Canadian business mission to the British Isles and the United States for the purpose of studying relations between the farmer and industry on this continent.

In an interview at Winnipeg, Mr. Franklin said: "We do not think Canada can meet the tariff situation by further raising her own tariff scale, but should concentrate on increasing our manufacturing and a trans-empire trade."

Cuts and Burns

Minard's soothes inflammation, removes all poison and heals quickly.

MINARD'S
"KING OF PAIN"
LINIMENT

W. M. U. 1708

The moisture evaporated from a single white oak in a day has been estimated to be 150 gallons of water.

Can Measure Laughter

Machine Determines Whether Comedy Piece Is Success Or Failure

"John James, comedian, Lafograph 89," is the name of the card used by entertainers to record the fact a new apparatus has been invented to register the exact "strength" of the laughter aroused by a comic piece in a theatre or concert hall. It registers the laugh, but it does not tell the truth. The machine will presumably have a figure to denote absolute efficiency, and should a musical comedy fail to come up to scratch it will not longer be possible to estimate that the failure is due to the critic's pen. Instead of praising an author's wit, or discussing a comedian's qualities, it will be necessary only to say at the end, "Lafograph 100, or 50, or 0." The machine will also indicate when the public will be able to see the registered rise and fall of the needles, how late it will be at "itter," rose to the middle of spheres of "chicke" and "gag," and when the highest "outburst" or "surgeon" or reached the supreme heights of "scrach."

PAINS IN THE BACK

These Are Usually Due To A Weakened Condition Of The Blood

The muscles of the back are constantly under the strain, and have but little rest throughout the day. They are therefore in need of a plentiful supply of oxygenated blood, and a pure type of red blood can give them. Unless they have this help, they will have backache and continue to have it.

Hæmæcæle soldiers or nurses know that it is important to keep the muscles of the back strong, and the tired, worn-out muscles of the back should have their exhaustion relieved by a good massage.

The one generally recognized efficient blood builder is Dr. William Williams' Pink Pills.

This has been improved through the use of this medicine, backache disappears. It is recommended by Dr. Williams' Pink Pills.

If you need to keep these pills to stand up straight without suffering from backache, take a few drops of Dr. Williams' Pink Pills.

Elimination of Level Crossings Is Object Of New Undertaking

Ottawa.—The Board of Railway Commissioners, the road departments of the Provincial governments throughout Canada and the railways have been asked to co-operate in the survey of the level crossings situation with a view to a definite and comprehensive program of level crossing elimination.

The railroads are engaged in classifying the crossings from the point of view of the degree of danger and the nature of the protection needed. When this has been done, the board, the provinces and the railways will confer and determine the most effective measures. The most dangerous crossings will be eliminated or protected first.

The program to be drawn up will require from half a million to a million dollars a year for the first few years, with means of expenditure of two to three millions annually. The grade crossing fund which has been replenished at the rate of \$200,000 a year for many years, will provide immediate assistance to the campaign of the last few years inaugurated by the Hon. Charles Dunning, minister of railways. At present it is down to about \$120,000 and Mr. Dunning will probably ask Parliament to increase it to \$300,000 to the large amount.

Under the provisions of the Federal government's fund, which is administered by the Railway Board, will pay up to 40 per cent. of the cost of any crossing elimination and protection.

Father Sought By Radio

Message Sent To Police Officer In Va North To Advise His Off Son's Illness

Ottawa.—A sick child in a hospital here is waiting reply from his father at the lonely Royal Canadian Mounted Police post at Chesterfield Inlet on Hudson Bay, where a national broadcast over the Canadian Railways Radio station.

The message was to advise Staff Sgt. George M. Joyce, who has just joined the force. Some 150 miles from here, and asking him to get in touch with Ottawa by radio if he can get to a sending station.

World's Population

Believe Population Will Be Doubled In Next 50 Years

Chicago.—Mr. Mankiewicz, probably will require another 50 years to double the world's present estimated population, which is 1,700,000,000, if fertility and mortality remain as at present. A mere doubling of the world's population change in the race composition, with a greatly increased percentage of Slaves. The population of North America, Western and Northern Europe, and Australia even now are no longer reproducing themselves.

Humor Is Denied

Ottawa.—A rumor that Canada has made an offer to the Newfoundland government for the purchase of Labrador was given official denial here. "In so far as it is true," said Premier King, when the rumor was drawn to his attention. The rumor indicated that the price offered by the Dominion government was one hundred million dollars.

Hon. Hiram H. Go to Edmonton

Edmonton.—Hon. Peter Hennan, federal minister of labor, will be in Edmonton shortly to sign behalf of the Dominion government the necessary documents and agreements in connection with the old and new pension scheme about to go into operation under the joint auspices of the two governments.

May Spend Winter In Africa

London, England.—The Ropponi News says the Undersecretary of State, Sir Cecil, is considering proposals to spend part of next winter in one of the British dominions. South Africa, about which confidential inquiries already have been made, is considered the most suitable.

Non-Party Delegation

London, England.—With the decision to send a non-party delegation to the League of Nations assembly in September, became known that Viscount Cecil would probably be one of the delegates.

W. N. U. 1703

CROP CONDITIONS ARE VARIABLE REPORT REVEALS

Ottawa.—The telegraphic crop report issued by the Dominion bureau of statistics showed a wide range of conditions across the country. Crop reports from the prairie provinces, southern and northern Alberta, warm weather with plenty of rain is noted in Saskatchewan and Manitoba. Fall wheat is excellent in condition, while spring wheat is reported from Nova Scotia. The early strawberry crop is expected in the history of British Columbia. Favorable reports are to hand from New Brunswick and Prince Edward Island.

The Canadian Congress representative said the present commission should be continued or a similar organization established vested with complete administrative control of radio broadcasting.

A former Legion Legate formed a broadcasting organization that would develop imperial patriotism and Canadian culture. Canadians said the Legion briefly were being overruled by those who were programs merged with propaganda.

The commission will at once begin the preparation of its report. It will probably be available about the end of the month.

State Control Of Radio

Royal Radio Commission: Major Important Recommendation

Ottawa.—Government control of all broadcasting stations, elimination of advertising from the programs and that listeners pay the upkeep by license fees is advised before the Royal Radio Commission makes its report to the All-Canada Congress of Labor and the Canadian Legion or the British Empire Service League.

The Canadian Congress representative said the present commission should be continued or a similar organization established vested with complete administrative control of radio broadcasting.

A former Legion Legate formed a broadcasting organization that would develop imperial patriotism and Canadian culture. Canadians said the Legion briefly were being overruled by those who were programs merged with propaganda.

The commission will at once begin the preparation of its report. It will probably be available about the end of the month.

Canada May Consider Relations With Russia

Communications From British Government Have Been Received At Ottawa

Ottawa.—Certain communications of a general and preliminary nature regarding the signing of the optional clause, and also bearing on relations between Canada and Russia, have been received by the government of Canada from the British government, that was the extent of the information given out here in respect to these matters which are accorded specific mention in the King's speech at the opening of the parliament.

Just what position the Canadians government is taking on the matter of relations with Russia has not been stated. It is considered likely, however, that Canada will support any such move.

Two Injured In Explosion

Faulty Water Jacket Burns In Jew's Orphanage

Winnipeg.—A violent explosion, which caused buildings within a half a block radius, caused injury to two persons and damage to the basement of the Jewish Orphanage, on Matineo Avenue, north Winnipeg. Two young children are cared for at the Orphanage, but all escaped injury.

While a city water works employee was attempting to repair a faulty water jacket in the basement it exploded. The employee, George M. O'Neilly, was probably hurt by Mrs. A. O'Neilly, wife of the Orphanage superintendent, suffered from arm injuries and shock.

It was later reported that fire had followed the explosion and that was responsible, though firemen from central and north stations were called out and aided in bringing the injured from the building.

Welcome For Airman

Montreal.—The Spanish trans-Atlantic aviator, Major Ramon Franco and his three companions, who were picked up at sea near the Azores after falling in a trans-Atlantic flight were the object of a continuous ovation from the time they reached Montreal until their arrival at the station where government and civic authorities with a band met them.

Earthquake In Japan

London, England.—Today's London Morning News says that a strong earthquake in the Wakayama prefecture sent the inhabitants fleeing from their homes. No loss of life was reported.

Favors Arms Cut

Tobias Adenai, Ijpe Akarade, minister of naval affairs in the new Meitato cabinet, in an interview, pledged support to further limitation of naval armaments.

Earthquake Recorded

Ottawa.—An earthquake of moderate intensity was registered at the Dominion observatory here, lasting about one hour. The distance to the epicenter was about 2,900 miles.

PARLIAMENTARY SECRETARY

Discover Liquor Cache

Aeroplane Flies Up 20 Barrels Of

Sydney, N.B.—Pleasing up 20 barrels of rum with the tail end of his plane was the unique experience of Major-General J. H. Macfie, when engine trouble drove him into a forced landing on a rocky nest under the clouds.

The cache was recently hidden under sticks covered with sod, and had the Moth dropped a wheel into the pit instead of neatly straddling it, the results might have been serious for the pilot and his guest, Dr. Fredrick Owen.

TO START NORTHERN
AIRIAL SERVICE

Plans are announced by the West-
ern Canada Airways for the opening
of an office in Edmonton with Lieut.
C. E. Black as manager. Mr. McKeon
as district superintendent. This move is in preparation for
northern expansion and the establish-
ment of air mail service on the
prairies during the coming fall. Two
of the company's planes will be
used for regular schedules between
Edmonton and points on the
Mackenzie river providing service for the
far northern areas where much ex-
ploration work is being carried on.

"I wonder why nobody claimed
she was dead when I saw her? When that rich
old man was courting her?"

"Oh, I suppose she made a liberal
discount for cash."

**ALBERTA EXHIBITS FOR
AMERICAN FAIRS
THIS SEASON**

Alberta will again be advertising
this season by an exhibit of agricultural
products and natural resources
to be shown at a number of state
and county fairs through the middle
western states. Arrangements have
been completed by the Publicity

Branch of the Department of Agriculture to show this display at fairs in Minnesota, Iowa, Nebraska, and
Kansas during August and Septem-
ber. A marked increase in the interest
shown in the opportunities for
settlement in Alberta and in migra-
tion to the province is reported
from the localities in which similar
exhibits have been shown during the
past few years.

Parents who switch responsibility
to the school might have better be-
haved children if a little more
switch was used at home.

The Green sports day is next. The
farmers out there are very busy irrigat-
ing these days, but the sports
committee is finding time enough to
prepare an excellent program for
Wednesday, July 1st.

We can always find parking space
for our income.

They are spending up the fishing
machines that will be used in the
next war. A new tank travels uphill
40 miles an hour, and is equipped
with everything, but an automatic
lack and fire pump.

LIFE SAVING

The pool is making swimming a
very popular sport in Bassano. Fortunately, no accidents have as yet
happened at the Bassano pool, and
to lessen the danger, a life guard is on duty every day.

It is just as well, however, for
every swimmer to know something
about life saving. The Edmonton
office of the Canadian Red Cross
Society is doing useful work in
supplying the public with useful in-
formation concerning swimming methods,
and have given the press the following
article for publication.

During the summer months there
is nothing that youth enjoys so much
as outdoor bathing. Whether the
water is clean or not, the particular
method of swimming is really a matter
of importance to the youth. Youth
takes time to consider consequences
and is rather careful of the individual
whose motto is "Safety First". In
consequence, summer after sum-
mer young lives are lost that can be
ill spared. Young lives wasted
in swimming.

Every child should be taught to
swim. The younger the pupil the
easier is he taught. Quite small
children rather resemble frogs, they
instinctively strike out in the correct
way when they themselves are
in water. Instruction in swimming
should form part of the education of
every boy and girl.

It is a healthful exercise. It is a
safeguard against accidental death
by drowning. It may be and frequently
is the means of saving life for others.

Childhood is the apparently drowned
is nearly as important as the ability to
swim. Instruction in the one

means instruction in the other. Help
protect the youth of Alberta by learning
to swim. Literature on First Aid
can be had free of charge from the
Canadian Red Cross Society, 407
Civic Block, Edmonton.

UNNOTICED

(The Edger A. Guest.) They never interviewed me. By the
camera and pen. His desire to be recorded to be
read by other men.

He was never in the papers, front or
second page or third. Of his labors in the vineyard only
those who knew him heard.

For his life was very simple. Many
kindly things he'd done,

But in dealing with his fellows he
had never used a gun.

He was useful in his business and of
money value to us all.

He was honest, he was decent, but
he was not a good copy staff.

He kept his little garden which he
tinkered round at night.

And he gave away the blossoms to
his neighbors, left and right.

But the paper made no mention of
his presence in the town.

For he never was a gangster of un-
savory renown.

The man who killed him loved him,
for the love of his life.

But he helped them bear their bur-
dens over many a rugged mile.

But there wasn't much reporters

could relate about his life

For although he'd made some money

he'd stayed faithful to his wife.

So he lived and died unnoticed, just

a little bit of a nobody.

Who had never shot a rival and had
never robbed a bank.

Cheerioo.

"Did he threaten you when he
kissed you?"

"Yes," he said: "if you scream I
will never kiss you again."

A Lamb Returns to the Fold

Curate: "I am very glad to see you
coming to church regularly." Mrs.
Black: "I am too."

Mrs. Black: "Oh, yes, sir. I'll be
going quite often now, sir. I do
hope to spite the old man. He hates
me going to church."

Here It Is —

The Rainbow Washer

It does the work It is built right It looks good
It is guaranteed

The "Rainbow" Washer has a full open-top tub, with a bright aluminum cover which fits snugly, yet is easily removed.

The "Rainbow" Washer has a most convenient starting handle, placed at the top of under-water impeller.

The "Rainbow" Washer has an exceptionally fast and thorough washing action. It will wash a big tubful spotlessly clean in a few minutes.

The "Rainbow" Washer is finished in attractive and durable enamel, giving it a handsome appearance, easily kept clean.

The "Rainbow" Washer is made with a strong one-piece tub of heavy cold-drawn seamless tubing.

The "Rainbow" Washer is equipped with the improved three-wing impeller, giving full amount of water displacement.

The "Rainbow" Washer has all moving parts enclosed or covered, yet readily accessible.

The "Rainbow" Washer has a large drain tap, conveniently located, which empties the tub conveniently.

The "Rainbow" Washer is fitted with adjustable easier brackets by means of which the tub can be raised or lowered to the desired height.

The "Rainbow" Wringer tension is powerful, yet simple to adjust. It can be released instantaneously.

The "Rainbow" Wringer rollers are full size and of soft rubber. They will not crush fasteners nor break buttons.

The "Rainbow" Wringer swings around and automatically locks in one of four positions convenient for every use.

THE FEEDING OF
POLOPOW ON RANGE

In order to produce good poultry
it is necessary to induce a continuous growth throughout the
growing season. To accomplish this, keep the flock comfortable, well-supplied with good feed and abundant
water.

At the Central Experimental Farm, Ottawa, the growing stock is cared for as follows: the pullets and cockerels are put in separate fields of clover or alfalfa which have been free from weeds and grasses for several weeks during which time a series of crop rotations have been practiced. When possible this range of succulent green food is generally located beside a field of corn, or sunflowers, or an orchard, where the chicks can get extra protein from the grubs, and have a supply of shade during the hot, sun-baked range house, one that keeps the birds cool and comfortable during the warm and sultry evenings.

is so constructed as to make fresh air
the ruling factor. Plenty of roosting
space is provided. The water utensils are placed in shade near
the feeding place.

For doublets' hoppers, partitioned for mash,
grain, shell and grit, are conveniently
located.

The growing mash is composed of:

bran, middlings, finely

ground yellow corn and oat flour,

equal parts, 1 per cent fine table salt,
1 per cent lime, 1 per cent (not over
5 per cent animal feed
mixture of ground meat scrap, meal,
fats, meal, milk powder, and
cod liver meal. The animal feed is
varied according to the season or the
rate of sexual development required.

The grain mixture consists of

cracked corn and wheat equal

parts, with 1 per cent lime added.

This method of feeding avoids waste and
minimizes birdy. However, if sparrows are
quite numerous, it is good economy to close the whole
grain section of the hopper and practice
hand feeding. The water utensils and hoppers are moved to
other ground occasionally.

A copy of Bulletin No. 1, "Poultry

Foods and Feeding," should be in
every poultry keeper's possession. It
may be obtained free from the Publications Branch, Department of Agriculture, Ottawa.

The secretary of the bar association
was very busy and very tired on
Tuesday afternoon, when his telephone rang
from the City of Oakland.

"Well, what is it?" he answered.

"Ah," in the deepest of tones.

"Is this the city gas works?"

"I didn't like it so far after all, did
asked a woman's soft voice.

The Spic-Span is —
Revolutionizing Housecleaning

HOUSECLEANING
methods have been completely revolutionized by an amazing new cleaner, the Premier Spic-Span.

This small, but powerful cleaner, has at one stroke made "attachments" obsolete and created a higher degree of car and furniture upholstery, stairway and curtain cleaning speed and thoroughness than was ever possible before.

For the Spic-Span takes the full-force of powerful suction into the most difficult corners. It gets dirt from wherever it has lodged anywhere in the house.

Make the Spic-Span part of your cleaning outfit. You will, after you have seen it at work.

Here and There

(29)

New style bucked seats for first class coaches on Canadian Pacific day fast trains have been introduced on recent trains of the company and are proving very popular. The seats are upholstered in a comfortable material and are provided on the top deck, coat rail, umbrella stand and check holder for the convenience of passengers.

The stock recently visited Canadian Pacific Train No. 61 between Lethbridge and Saskatoon and left a daughter to Mrs. Mary Alexander who had just returned from a long stay in a farm near Edmonton. Alexander, government conductress of the Canadian Pacific, was at Quebec, was on the train. She secured a first aid kit from the Canadian Pacific and took charge of the case. Mother and daughter are doing well.

A tunnel built at a cost of \$150,000 makes it now possible for trains from North Vancouver to travel through the Canadian Pacific Transcontinental system. The first train making use of this new construction passed through the tunnel under the seven narrow bridge and the hundred rail system, carried by the tunnel, and the tunnel has distinguished westerners.

Funerals and weddings can "hold no terrors" for Captain Frank McMillan, who has been presented with no less than three top hats. As captain in charge of the Canadian Pacific's famous St. Marie Park Hotel and Fort William for the first time this year, Captain McMillan, at this point, he was given the traditional welcome to his new post with a silk hat as his park occasion. The three shining toppers represent a nest record to which it will take three hundred years to wear them all out.

Local News

Mr. and Mrs. E. E. Gillies were visitors from Hussar last Tuesday.

Mrs. Nellie Wallis, of Cochrane, is the guest of Mr. J. R. Donaldson.

Mrs. Hilda Dunstan, of Calgary, was the guest of Mr. D. McLeod for a few days last week.

Mr. and Mrs. M. E. Granlund and son are taking their vacation. They are visiting at Calgary this week.

Mrs. A. E. Stewart left last Sunday for Whistler to visit with relatives.

Mr. and Mrs. Roy Smith and children took in the Calgary exhibition and stampede this week.

Joe Stiles was a visitor to the Calgary stampede this week, going up on Sunday.

Mr. and Mrs. D. Cathro are away on a vacation. They are visiting relatives at Cardston.

School inspector J. P. Boyce is taking his vacation with his brother, Warkworth, Ontario.

Gwen Stiles successfully passed the elementary division pianoffice in Calgary recently, with 115 marks.

Mrs. S. Leonard and daughter Freda made a trip to Calgary Monday to see the parade and stampede.

Mrs. Chas. Hopkins and daughter Alice left Tuesday night for a visit to Kenora, Manitoba.

Mr. and Mrs. N. Hilton were among the Bassano people who attended the Calgary stampede this week.

Mr. and Mrs. Wm. McLaws and children were visitors to the Calgary stampede and exhibition this week. Mrs. McLaws and children remained in the city to visit with relatives.

About seventy-five children attended the Masonic picnic at Crossbow Wednesday afternoon. The boys and girls enjoyed swimming, foot races, and other sports.

The C. P. R. No. 3 passenger train last Sunday was crowded with people on their way to the Calgary stampede for the exhibition and stampede. Mr. McDonald returned Wednesday morning, but Mr. McDonald and the children remained in the city for a few days longer.

The C. P. R. No. 3 passenger train last Sunday was crowded with people on their way to the Calgary stampede for the exhibition and stampede. A large number of passengers boarded the train at Bassano, and it was necessary to put on extra coaches.

Knox Sunday School picnic was held at Crossbow Creek on Saturday afternoon. Boys and girls, along with the children, were taken out in carts, and had a most enjoyable afternoon playing games, swimming, and, of course, a very fine luncheon was served, which the boys and girls enjoyed very much.

BACK SEAT TO THE BEAR—
Husband thinks it's "Green Heaven!"

Wife thinks it's "Then don't you turn off the carburetor?"

Quick Thinking—
"Why are the days longer in the summer?"

"Because the heat expands them."

"Five steps on the gas."

THE—"In a hurry, but can hold her own."

Tat: "Yes, but he never does."

Where's That Margarine?

A magazine article, printed elsewhere, says that buying increasing exercise, says that buying increasing the reach. So does boarding, and it's less strenuous.

Grand for the Blacksmith's Chorus

Magistrate: "Are you sure he was intoxicated?"

Policeman: "No, sir, not positive, but his wife says he brought home a mandoline cover and tried to play it on the grand piano."

Somebody's Foot Ache

The Mazama dance held at Laurelhurst Park last night was certainly an enjoyable evening.

Portland, Ore., Mazama.

Who Look for Trouble?

Two friends were talking over a projected holiday on the Continent. One friend said, "How do we do water in Paris?"

"Avons vomé?" began the other, then broke off. "But shall we want any water in Paris?"

No Fresh

Particular Old Lady: "Are those eggs fresh?"

Grocer: "Here boy, see if those eggs are cool enough to sell."

CROP MANAGEMENT FOR NEED CONTROL

by G. E. Delong, assistant superintendent, Lacombe Experimental Station

A thorough summerallow will usually be the most effective method of bringing the most persistent growing perennial weeds under control. This is particularly true in the summerallow as a weed control measure, it is advisable to adopt some systematic rotation of crops, with regular seedling down to grass and legumes at short intervals.

It is important that the land owner will afford to free their land of all weeds by any method which will not give a crop of some kind.

While the eradication of perennial weeds such as sow thistle, quack grass, etc., necessitates the use of the fallow, such treatments should be adopted in the fall from annual weeds such as wild oats, mustard, or weed seed, hence it is necessary from an economic standpoint to adopt farming methods that control rather than eradicate such weeds.

It is important that the land be fully cultivated with a plow, harrow, or similar implement, so that the seed will not germinate.

When the seed is sown, it should be sown in the fall, and the ground should be prepared with a harrow, or other implement, which will effectively compete against most of our annual weeds and many perennials. Land to be used for these crops should be partially flooded before sowing. It is usually wise to use the stubble a year or more, as the stubble aids in the germination of weeds which are sown with the preceding crop and help to break the ground.

A succession of crops should be adopted, which will not give a crop of some kind each year.

It is important that the land be kept clean and free from weeds, and the ground should be sown with a crop which will not give a crop of some kind each year.

It is important that the land be kept clean and free from weeds, and the ground should be sown with a crop which will not give a crop of some kind each year.

The druggist was awakened long after midnight by the violent ringing of his bell. He looked around his shop to see a young miss in evening clothes.

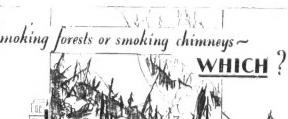

"What's the matter?" he cried, as he pulled on his dressing gown. "Something ill?"

"Oh, no," she replied gaily, "but I'm dancing." The druggist, after a brief pause, said, "Well, go on, then." "Well," said the druggist, after a brief pause, "I'll put you in the birth column tomorrow and give you a free receipt."

Really?" asked the young miss.

"Well," said the druggist, after a brief pause, "I'll put you in the birth column tomorrow and give you a free receipt."

Smoking forests or smoking chimneys—WHICH?

WE CAN'T HAVE BOTH

Over one-half of all Canada's industries depend on wood as a raw material. When the forests are destroyed, railroads must close down, railway earnings must suffer, trade must stagnate and prosperity must vanish.

Join us in saving forests.

Help save your forests.

WORLD HAPPENINGS BRIEFLY TOLD

Sir Belly Alston, British ambassador to Brazil since 1925, died suddenly in a London hotel, aged 60 years.

Sleep from the famous flocks of His Majesty King George are being imported to Vancouver Island and will be pastured in the Sooke Hills.

The first load of grain has left Vancouver for Vladivostok.

This is the first movement of this commodity to a western Siberian port in years. It is expected that a further cargo will go forward shortly.

London newspaper say the much-touted film of war between British and German film groups had been signed with involved capital amounting to approximately 60 million pounds sterling, or \$300,000,000.

Martin Pollon, one of the most popular young players in the film who killed himself when his plane crashed because of a broken wing. His parachute failed him after the pilot had leaped from the plane.

A caisson of grease, which overturns and ignites in the manner of gunpowder, is now being used to strip the factory at New West hamster and canned fish from the Fraser Valley to the British West India market.

A Chinese-English agreement has been signed providing for the opening of Chinese naval bases in Great Britain and to the furnishing of the Chinese government of a British naval mission in development of the Chinese army.

Bulman's Limited, of Vernon, B.C., has started construction of the new departmental store to be completed so that the factory will be completed in time to handle the coming season's crop. Machinery is already moving in.

A shipment of purchased cotton seed of 25 head of Gourmets purchased in Wisconsin and Illinois by D. V. Runkle, of Regina, has been placed on the Pilot Butte stock farm near Regina. The shipment is valued at \$10,000.

Has Gained Popularity

Essay Contest Teaching Toledo School Children Facts About Canada

A Canadian contest in the Toledo school system, organized by Edmund G. O'Brien, M.L.A. for Essex, has gained such popularity in that city that one of the newspapers now is carrying a daily feature entitled "Facts About Canada."

Other cities have followed suit, and the Toledo papers pointed out, "It is a nation of home-owners in the farming district, 78 per cent of the people owning their own homes."

Other cities have followed suit, and the Toledo papers pointed out, "It is a nation of home-owners in the farming district, 78 per cent of the people owning their own homes."

Complete Change Is Best For Vacation

Surroundings and Recreation Should Be Different In Every Way

The first requisite of a really beneficial vacation is wise planning. Remember, a vacation should be restful, not spent in trying what you do all day. If you are a collector, do not plan a vacation in the mountains. That will be just the place for the cashier—mountain collectors have been known to do.

The teacher is exhausted and she longs for rest, so the country is her first thought. Here she will read and sleep and take life easy and wonder what she can get ready. She is a quiet person, more tired now than ever. What the teacher needs to "build up" is ever-changing mental impressions. Travel is really the ideal vacation for the teacher.

So when planning your vacation, remember these few simple rules. If you are doing menial labor plan a vacation that will give you physical recreation and perfect rest of your mind. If your daily duties are单调 (monotonous) then plan a vacation in a quiet, restful resort. If your work is monotonous and of a quiet nature go where you will get excitement. If your daily task is physical labor need restful surroundings where you can read and have a nice quiet time among congenial people and so on.

New Society In London

"Gloomy Dean" Sponsors Movie Fan Dress Reform For Men

A new society, sponsored by the son of the famous "Gloomy Dean," has been formed in London, England, under the guidance of the Very Rev. W. R. Inge, the "Gloomy Dean" of St. Paul's.

The members, founded on the same vague platform "That man may form their clothes with as much profit to their health and appearance as women," have recently achieved, "rules against the cold suit and superfluous buttons on, suit."

Charter members include representatives of the church, stage, education and professional groups. We want to make men's clothes good, less unhealthy and less cumbersome," said Alfred G. Horland, acting secretary, adding: "The less clothing we wear, the better; men wear far too much."

HAMBURGER IN CASSEROLE

2 lbs. of round steak ground
or
2 lbs. of lean hamburger
2 large onions
2 large peppers, green or red
1 large lemon
1 8 oz. bottle tomato catsup
1 lb. or more of bacon according
to taste
Salt and pepper

Buy your casserole dish or pan and lay about 1½ inches of hamburger in bottom.

1 layer of one onion thinly sliced
1 layer of one pepper thinly
sliced
Juice of half lemon
Salt and pepper to taste.

Repeat until the meat is used, making the second layer of meat about one inch thick, this will give a total height of about 3½ inches. Mix thick onions over top of a whole bottle (8 oz.) of catsup over and over strips of bacon. Bake slowly or in modern oven for one hour and a quarter.

Early oil wells at Bakau were scooped out by hand.

Saskatchewan Egg Pool

Now Handing More Than Eight Cardinals Every Week

A general increase in the number of birds handled by the Saskatchewan egg and poultry pool in the first few months of 1929 is reported by D. Graham, secretary-treasurer of the organization. Sixty-eight per cent of the birds are now being sent up to the end of April, in comparison with the corresponding period of 1928. Eight culling stations are being operated in the province by the pool, with more than a carload of eggs being handled every week in each location. At Saskatoon, the busiest station, three cars a week are being shipped.

Song Bird Immigrants

Recently we received word westward by the Canadian National Railway, a considerable group of natives of Germany. These travellers numbered one hundred and are song birds. They were originally from a firld in Dusseldorf, Germany, on their way across the Atlantic, and set out for their destination under the care of the Canadian National Express. Young Canaries, White Cockas, Blue Cockas, and schoolmarmers were included in the shipment.

How many times a day do you command? How many times do you find fault?

A Pleasing Incident

Deaf and Dumb Children Are Entertained To A Lecture

This pleasing and pathetic little incident took place in Montreal recently—at the largest health exhibit in Canada when the Canadian Social Hygiene Council, which invited the Montreal Federation of French Health Agencies in a financial drive.

Monday afternoon, an evening class of school children being carried free on the street cars. And one day they brought all the little deaf and dumb children in Montreal.

The gathering had attended a special service given to them in little groups of fifteen or so, around lady teachers. Each teacher faced the lecturer, and the children solemnly looked at their teacher.

Then the lecturer began to speak to the children while the teacher hearing, and watched their teacher.

He spoke only a few sentences, and stopped. And all the teachers moved their fingers, translating the lecture. The children's eyes followed eagerly as the understood words that were being relayed to them, their own native language that they could not understand until it was translated into motion.

Children are notably fidgety at lectures, but not so these youngsters. To see how they enjoyed every minute of it was enough to bring tears to the eyes of every teacher.

They were being brought into closer touch with the world of their voiced playmates; their partial isolation was being temporarily broken down. To each of them, that lecture was a quiet, restful respite.

If your daily task is physical labor, go where you will get excitement. If your daily task is physical labor need restful surroundings where you can read and have a nice quiet time among congenial people and so on.

Recipes For This Week

(By Betty Barclay)

GOLDEN ORANGE FROSTING

Grated rind of 1 orange
3 tablespoons orange juice
1 tea-spoon lemon juice
Yolk of 1 egg
Confectioners' sugar

Measure orange juice with fruit juice and let stand 15 minutes. Strain into beaten egg yolks and add enough confectioners' sugar to sugar.

Children are notably fidgety at lectures, but not so these youngsters. To see how they enjoyed every minute of it was enough to bring tears to the eyes of every teacher.

They were being brought into closer touch with the world of their voiced playmates; their partial isolation was being partially broken down. To each of them, that lecture was a quiet, restful respite.

Out Of Their Element

Eskimos Cannot Stand Climate Of Eastern Canada

Ben Ell, nine-year-old son of Chief John Ell, head of the Southampton Eskimos, and Sam Foulds, who have been recently learning the ways of civilization at Lakeland preparatory school, near Peterboro, Ont., have been forced to give up their studies there and hurry home.

Ben and Sam soon became favorites at the Lakeland school where they have been for two years—but just before Christmas both were forced to relinquish their studies to return home.

We ponies, mussels, tonsilis and adenoids proved too gretting a test for little Eskimo constitutions and it has been decided to send them back to their northern home.

Rush For Honestads

Honestads are being filed on at the rate of 100 a week in the Edmonton Land Office.

Premier Ferguson Christens Aeroplane

Premier Ferguson, of Ontario, christening the "Imperial," a Gipsy Moth plane, presented to the Aviation League of Canada by Imperial Oil Limited, at the opening of the Hamilton Airport recently. The plane is being used by Major Gen. J. H. MacBrien, C.B., C.M.S., D.S.O. in his travels about the country in the interests of aviation.

Ontario Pension Act

Qualifications Necessary For Those Who Wish To Take Advantage

Of Old Age Pensions

Persons who have reached the age of 65 and are Canadian subjects, resident in Canada 20 years, and in Ontario five years, and who are in receipt of income to the amount of \$365 a year, may apply for pension under the Ontario Pensions Act. The Pensions Act, as defined by order-in-council and published in the Ontario Gazette.

To receive the pension applicants must not be inmates of a nursing home or hospital, and the pension is not payable if the applicant has sold his home or has moved away from it, unless he has sold it for less than \$1,000 in the air, or in the possibility announced by Paris, France. The scheme entails the establishment of wireless energy to be sent from the top of the Elbow tower to the various pensioners. Instead of central heating plants are no more impossible than sending wireless signals round the world without wires.

For the pensioner to receive a pension, he must be 65 years old, and that radio will interpret the waves, transform them into heat, and become a radiator to warm the room.

The proposed waves would be 400 meters long, and the wave length is to place on the receiving posts a diaphragm that the wireless flow will pass through to the previous level in the air, and the next year will be 300 meters long.

On August 1, 1929, increased employment has been due to the great activity in all lines of manufacturing, construction, lumbering and other industries.

Employment At Highest Peak

Indications Of Great Activity In Business Throughout Dominion

What is regarded as a reliable indicator of the good condition of business generally in Canada is the employment situation throughout the Dominion. On June 1st of this year, employment was at the highest level, having been to the month of any month on record, showing 1,046,756 persons employed by 6,732 firms, an increase of 50,000 over the month of May, 1929. This increase of \$5,903, or 5.4 per cent, brought the index number to 122.4 over three points above the previous level in the air, and the next year will be 300 meters long.

On August 1, 1929, increased employment has been due to the great activity in all lines of manufacturing, construction, lumbering and other industries.

Sale Of School Lands

Great Interest Shown In This Year's Auction Sales Held In West.

Unprecedented interest was manifested in this year's auction sales of reserve school lands in Saskatchewan and Alberta. Attended at the various auctions, the sales were held well high, and reached 1,000 at some points. Many farmers acquired additional land adjoining their present holdings for the purpose of expanding their operations, or to make provision for their families. Many of the buyers of these lands are "new Canadians" who have prospered in western Canada.

In all, some 730,000 acres of land in the air, or 10,193,239 acres.

Prices paid ranged all the way from \$8 to \$70 an acre. In Saskatchewan, 1,662 parcels were sold, the average price being \$12.81 per acre, and in Alberta, 1,325 parcels, the average price \$11.32. The heaviest sales were at Ashtabula, Sask., where \$1,00,000 was realized, and at Rosetown, Sask., where \$1,21,000 was taken.

Grandmother Says

"That when she was a wee, tiny baby and her mamma did not have any milk to nurse her, she gave her Eagle Brand Milk, which made her strong and healthy, and now my mamma is giving me Eagle Brand, and I have gained over half a pound a week since I was three months old."

The healthy, uniform and economic quality of Eagle Brand Milk makes it the first choice for cooking and table use.

If your baby is not gaining in weight as it should, or cries or is irritable, something must be the matter with it.

In this paper from time to time you will find an advertisement of Eagle Brand Milk, a food that has raised the standard of infant feeding and the prepared infant foods contained in the advertisement and mail it to The Borden Company, Limited, 140 St. Paul St. West, Montreal, and they will send you, free of charge, a very helpful baby welfare book containing valuable information on the care of baby and a vast amount of useful information on the care of baby. Also ask for Baby Record, a diary of baby's progress.

The Sports Mode

A youthful interpretation, in chair-reuse green pleated silk grecian skirt, with same shade in blouse in novelty stripe pattern. The bustle bow of silk crepe is its sole trimming. It is easily made, as is noted in the pattern, and is an ideal idea for sports. It is frequently made of georgette, crepe, crepe satin, chiffon, voile, and silk, and men's silk shirtwaist fabric.

Style No. 240 is designed in sizes 16, 18, 20, 22, 24, 26, 28, 30, 40 and 42 inches. The bustle bow requires 2½ yards of 36-inch material per separate skirt, and 2½ yards of 36-inch material for the bustle bow. Cost \$6.50 per yard. Price 25 cents in stamps or coins (coin preferred.)

McKee's Men's Wear Store Bought For Govt. Liquor Vendor

Royal Bank Has Sold Building to Provincial Department of Public Works

The Government liquor store will be moved to the building now occupied by A. McKee's men's wear store. The Royal Bank of Canada and Public Works this week purchased the building from the Royal Bank of Canada, and the vendor's store will move in some time in September.

Mr. McKee plans to erect a new addition for his men's wear department at the rear of his grocery store. The new men's wear department will have its entrance on the south end on Centre street, and also an entrance through the grocery store.

Local News

Mr. and Mrs. W. E. Hambrico and children are in Calgary taking in the stampede and exhibition.

The cadets returned on Thursday from the camp at Cochrane.

Mr. Summerhill has been engaged as assistant by H. W. Ford.

Mrs. Isobel Simpson is attending the stampede in Calgary this week.

Ira. G. Scott left last Saturday night for Vancouver next week by automobile, coming back with E. P. Currie.

J. W. Reid, of Calgary, is acting as agent for the Crown Lumber Co. while M. E. Granlund is away on his holidays.

A demonstration of Paulin-Chambers sodas and fancy biscuits is being held at McKee's Stores Friday and Saturday this week by Mrs. Edwards, of Edmonton. Afternoon tea will be served.

FIRE LOSS HEAVY IN ALBERTA

Alberta stood highest among the provinces of Canada with a per capita loss of \$7.42 caused by fire during the year 1928. The losses were compiled by the Dominion Fire Commission. The total fire loss in Alberta during the year given is given as \$102,697,340.

His Job:

Tompson: "How is your son doing these days?"

Tobacco: "Fine. He gets \$100 for teaching the latest dances two evenings a week. Then, of course, he gets his \$2.75 a day in the lunch room."

Orange, Green and Patriotic Musical, travel round-the-world racers, are trying to make a trip circling the globe in less than 35 days using only 1000 miles a day. The team, left Victoria on Canadian Pacific greyhound Empress of Asia June 1st and reached Vancouver on the Empress of France June 22. Airplanes could within the limit of 30 days fly around the world but men have already used them. The race at time of writing is very close.

A problem that has defeated the learned for centuries—the squaring of the circle—has been solved by L. W. Hartman, Canadian Pacific Railway timekeeper in London, Ontario. He has devised a geometric method by which to reproduce the exact area of a square. University professors are now examining his solution. He was born in Rumford, Maine, grew up in college, but speaks English, French, German and Rummanian fluently.

Adlard Coetzer, head of the South African Springbok team had what he regards as a close shave the other day when he was off duty on the golf links and met a bear. The bear was not a man-eater, however, and after a short fight and the bear beat a hasty retreat. Wild animals are very tame in this district this year.

Over 2750,000 acres taken up by settlers in Canada in 1928 eighty per cent was in such northern districts as Prince Rupert, Saskatchewan and the Peace River district, Alberta. The migration northward was most pronounced in the Peace River region, where 4,000 people were taken up last year.

In this district, there are still many opportunities for the settler.

He is said to be well paid, capable of adding millions of dollars to the annual value of the Dominion's crops.
